DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Austria on 4/6/2001. It is noted, however, that applicant has not filed a certified copy of the A 560/2001 application as required by 35 U.S.C. 119(b).

2. The following is an examiner's statement of reasons for allowance:

3. Regarding claims 1,2,4 and 7-8, the prior art of record failed to teach or suggest the gate of the main semiconductor switch being connected to an output of the monitoring unit via a zener diode, and the gate of the auxiliary semiconductor switch being directly connected to the output of the monitoring unit and being triggered thereby, so that a change of the output voltage of the monitoring unit towards a locking of the semiconductor switches causes the main switch to change over into the liner mode, according to the value of the zener voltage of the diode in combination with other limitations recited in the claims.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
